

# Jello pudding cake

## Ingredients

- 1 pkg Cake mix any flavor (2 layer size)
- 2 pkgs instant pudding any flavor (4 serving size)
- 4 cups milk, cold
- 1 cup confectionary sugar

## Instructions

Prepare cake mix as directed on package for a 9 x 13 pan.

Remove from oven and immediately poke holes through the cake with the round handle of a wooden spoon. About 32 holes in rows of 8 x 4.

After poking holes combine pudding with sugar in large bowl. Then on low speed or with a whisk mix for no more than 1 minute.

Quickly before pudding thickens pour over warm cake into holes. Allow remaining pudding to thicken slightly, then spoon over top and swirl to frost.

Chill at least 1 hour and store in refrigerator
